

Automate Cross-Border Tax for 50+ H-1B/TN Clients

The Problem

Immigration law firms waste 250+ hours per year on manual dual-country tax calculations for H-1B and TN visa holders who receive RSU compensation.

- 5 hours per client spent on spreadsheet-based tax calculations
- 30% error rate leading to IRS penalties and client complaints
- \$500 cost per filing when outsourced to CPAs
- Zero audit trail for compliance tracking

The TaxBridge Solution

Case Study: Smith Immigration LLP

Vancouver-based firm managing 80 H-1B/TN clients at Meta, Amazon, Microsoft

"TaxBridge transformed our practice. We now handle 80 cross-border clients with the same effort we used to spend on 10. Our clients love the detailed Foreign Tax Credit reports — it's become a competitive advantage."
